## **Tech Support Safety Tips from iskbusinesstechnology.com**

- 1. Always watch the screen as your computer is being repaired. If your screen become non-visible, demand to be able to see what is occurring, or terminate the session.
- 2. Beware of any company claiming to be Apple. Apple is not in the business of

monitoring people computers, and will never contact you. Especially to alert you to a virus infection that may be present. If a company tells you they are Apple or calling in behalf of Apple, please notify support@iskbusinesstechnology.com and on emergency requirement call on the toll free number (866) 209-1643 (USA) within business hours PST

immediately before continuing.

3. Ask for details of the services performed with an itemized report upon completion.

Ask for detailed lists of any virii - (virus) or malware found and removed.

Beware of technical support companies contacting you starting you have any issues on your computer. Customer should always initiate a call for service.
